

# Public Information

**Project Number: NH-0003(621)**

**Resurfacing and 2' Safety Widening on SR-3(US-31) from I-65 to CR-68—Including Access Modifications**

*The East Central Region of the Alabama Department of Transportation proposes implementing access management measures within the project corridor to improve traffic operations along SR-3(US-31) in Alabaster.*

### Project Description

Proposed National Highway maintenance of approximate 2.6 miles of SR-3(US-31) involves the resurfacing, planing, restriping, patching and widening the roadway 2 feet. Additionally, access management measures will be incorporated to improve traffic operations beginning at the I-65 southbound Exit Ramp (#238) to Industrial Road and will include:

- ◆ Lane extension for turning movements and storage
- ◆ Close median crossovers
- ◆ Close driveways
- ◆ Limit left turn movements
