Additional Lanes and Bridge Replacement on AL-216 from Youngblood Parkway to the I-59 East Ramp of Exit 100

The Alabama Department of Transportation (ALDOT) proposes to add lanes from Youngblood Parkway to the I-59 East Ramp of Exit 100 and replace a bridge on AL-216 over I-59/20 in McCalla, Alabama. Information about the project is available to the public for review and comment. Your comments may be provided by US mail, email, voicemail, or online as described below. Comments for the proposed project must be submitted by **August 10, 2023**.

Project Description

The purpose of this project is to improve traffic flow on AL-216 at Exit 100 by constructing a Diverging Diamond Interchange (DDI). The DDI will allow for the heavy left turning traffic to flow more freely.

The project would require replacing the existing bridge over I-59 and adding lanes on AL-216 from Youngblood Parkway to the end of AL-216.
