RE: **Referencing the Alabama Department of Transportation (ALDOT) in Plan Assemblies for Projects not funded or reviewed by ALDOT**

It has come to our attention that some locally funded projects (i.e. local Rebuild Alabama funds) let to contract by the Sponsor, but not reviewed by the Department, are still referencing ALDOT on their plan title sheets. ALDOT should not be referenced on title sheets for plans that were not funded or reviewed by the Department. An example is attached for your reference.

It is acceptable to reference that the plans have been prepared to conform with the Alabama Department of Transportation Standard Specifications for Highway Construction and to utilize ALDOT's Special & Standard Highway Drawings/special project details as necessary.

Please feel free to contact me should you have any questions or comments concerning this matter.
